

Rayat Shikshan Sanstha's  
Karmaveer Bhaurao Patil College, Vashi  
Department of Philosophy

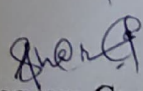

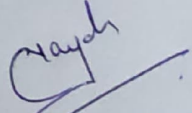

**Programme Specific Outcome:**

Pursuing a degree in Philosophy helps a student in the following ways:

1. **Skill Development:** With a bachelor's in philosophy, students are introduced to the basic principles of the field and adopt the important skills of analysis, rhetoric, writing and critical thinking.
2. **Lifelong Learning:** These highly critical, analytical, and argumentative skills that are developed often lead students to pursue legal studies, MBA programs, or seminars. Jobs for philosophy majors include a lawyer, systems analyst, cultural affairs officer, technical writer, and a critic.
3. **Problem Solving:** The study of philosophy enhances a student's problem-solving capacities. It helps them to analyze concepts, definitions, arguments, and problems. It contributes to their capacity to organize ideas and issues, to deal with questions of value, and to extract what is essential from large quantities of information.
4. **Communication Skills:** The student will develop skills in verbal and written communication, problem solving, clear and disciplined thinking and analysis, along with persuasive argumentation.
5. **Reasoning:** By studying Philosophy, students can clarify what they believe, and they can be stimulated to think about ultimate questions. A student can study philosophers of the past to discover why they thought as they did and what value their thoughts may have in one's own life.
6. **Critical Thinking:** Philosophy brings the important questions to the table and works towards an answer. It encourages the students to think critically about the world; it is the foundation of all knowledge and when utilized properly, can provide them with huge benefits like preparing them for competitive exams, civil services, etc.
