Policy Document Campus Policy

Preamble:

A Green Campus is a place where environment friendly practices and education system jointly promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

College environmental aims and objectives:

The focus areas of this policy are:

- To protect and conserve ecological systems and resources within the campus.
- To ensure judicious use of environmental resources to meet the needs and aspirations of the present and future generations.
- To integrate environmental concerns into policies, plans and programmes for social development and outreach activities.
- To work with all stakeholders and the local community to raise awareness and seek the adoption of environmental good practice and the reduction of any adverse effects on the environment.
- To continuously improve our contribution to climate protection and adaptation to climate change and to the conservation of global resources.
- To continuously improve the efficient use of all resources, including energy and water, and to reduce consumption and the amount of waste produced, recovering and recycling waste where possible.
- To make the campus plastic free.
- To conduct environmental and energy audits from time to time.
- To minimize the use of paper in administration through having policy for E governance.

Policy:

Clean Campus Initiatives

Landscaping Initiatives

Clean Air Initiatives

Smoking Free Campus

Infrastructure

Solar Power Plant

Installation of Energy Efficiency Equipment

Water Conservation through Rainwater Harvesting System

Waste Management processes

- ◆ Solid Waste Management
- ◆ Liquid Waste Management
- ◆ E Waste Management

Awareness Initiatives

Environment centric Student Societies and Department Activities

Green Audit

Energy Audit

Plastic Free Campus

Clean Campus Initiatives:

We pledged to actively coordinate cleanliness activities in the college and beyond the campus in accordance with the vision of Swachh Bharat Abhiyan. It commits to continue with this Programme The broad vision is as follows:

1. Generating mass awareness on cleanliness and hygiene amongst students and staff members by holding regular cleanliness drives. The idea is to motivate them to contribute in a proactive manner.
2. Activities under Swachh Bharat Abhiyan will be a key component of all the community work being done by NSS, NCC and Green Society volunteers of the college.
3. Staff Members will be encouraged to participate in the cleanliness drive in the college campus.
4. Events such as poster and slogan competitions, essay writing, spoken word poetry, speeches, skits on Swachh Bharat will be organised.
5. Rallies on themes connected with Swachh Bharat Abhiyan in and around the college campus will be conducted to create mass awareness.
7. Remove all kinds of waste material like broken furniture, unusable equipment etc.
8. Administer of the pledge by students and staff members to maintain cleanliness of the college campus and its surrounding areas on an annual basis.
9. Conduct works hops on the 3Rs: Reduce, reusing and recycling of waste.
10. Commit to manage waste and maintain clean campus especially during college events.

Landscaping Initiatives:

The campus landscape, like its buildings, can be seen as the physical embodiment of a college's values. It is a vital part of the life of a campus, providing space for study, play, outdoor events, relaxation and aesthetic appreciation. Green campus landscapes also manage runoff, help recharge groundwater, and clean and cool the air on campus. The landscape serves as a visual representation of the campus community's commitment to sustainability. As campus landscapes are so visible and accessible, landscaping initiatives are a great way to build awareness around the environment.

The landscape of trees and plants provide the students and staff with clean and cool air and is a soothing environment. The college commits to enriching this healthy habitat and maintaining the symbiotic relation of the institution with nature by

- Organizing annual tree plantation drives
- Encouraging student societies to hold tree planting events through Green Army Project

Clean Air Initiatives

We encourage our students and staff to use public transportation. We encourage carpooling to college, an activity that will control air pollution and strengthen social interaction. The entry of automobiles inside the campus is restricted to discourage the use of private vehicles. We are celebrating no vehicle day/use bicycles /Public transport on the last day of every month.

Smoking Free Campus

As a step in this direction, smoking and use of tobacco in and around the campus is strictly prohibited. The discipline committee of the college ensures enforcement of the anti-smoking policy.

Infrastructural Initiatives

Renewable Sources of Energy is dedicated to minimize and sustainably manage its use of electricity. The college believes in reducing the consumption of electricity produced by non-renewable resources by switching to clean energy sources like solar energy for purposes like lighting the campus.

Energy Saving and Energy Efficient Equipment

We commit to install environment friendly electrical appliances that save energy and reduce wasteful inefficiencies. The college believes in using cleaner energy such as LED lighting. Water Conservation through Rainwater Harvesting System

As an institution located in the Navi Mumbai, the area that has seen maximum fall of ground water levels, our college has committed itself to this effort to replenish the groundwater table by practicing rainwater harvesting. This practice helps in the replenishment and recharge of the groundwater.

Awareness Initiatives:

Outreach and education are of utmost importance so that all members of the campus community may value the objectives of the policy and aid in its implementation. This is why our college supports and encourages awareness campaigns, seminars, workshops, conferences and other interactive sessions to facilitate effective implementation of the Green Campus, Energy and Environment policies.

Environmental consciousness committee and Department Activities encourages all the departments and specific student societies like Green Army, NSS, NCC and others to organize events, competitions and training sessions that will bring about positive environmental changes at the grassroot level. The college support s departments and student societies in moulding the students into active agents of environment protection and conservation.

Green Army Project

"Green Army" project inaugurated on the occasion of Padma Bhushan Karmaveer Bhaurao Patil's birthday. Under this initiative, every student studying in the college wants to plant 2 local species of trees each. These plants should not only be planted but also cared for with affection for at least 2 years. A photo of tree planting, tree growth, tree care, new ideas about tree care every 3 months is to be shared on the college's website / via the link sent in the

WhatsApp group. Students / students / professors who have been cultivating trees for at least 2 years will be given a certificate of "Green Army" from the college.

Conduct Green Audit

The college aims to regularly conduct a Green Audit of our college campus to assess our strengths and weaknesses to further our goals of long-term sustainability. A green audit is a useful tool to determine how and where most energy or water or resources are being used. The college can then consider how to implement changes and make savings. It can determine the type and volume of waste. Recycling projects or waste minimization plans can be adopted. It will create health consciousness and promote environmental values and ethics. It provides a better understanding of the impact of eco-friendly practices on campus. Green auditing will promote financial savings through reduction of resource use. It is imperative that the college evaluate its own contributions toward a sustainable future.

Conduct Energy Audit

An Energy Audit to be conducted as and when required to further reduce its carbon footprint. The importance of reducing energy consumption cannot be overstated. The energy audit, with its specialized tools will identify wastage of energy. Such an inspection often reveals several different flaws which cause a loss of significant amounts of energy which the college will not be able to detect. These flaws often have easy and affordable solutions and provide significant savings.

Plastic Free Campus

K.B.P. college has been observing most of its duties in terms of solid waste management since its inception. In view of the Government of India's resolution to ban all single use plastics due to the hazardous impact of plastic use and pollution, the college administration strictly bans the use of single use plastics in its premise to make it a 'Plastic Free Campus'.

Waste Management Processes

Our college strives to have a minimal impact on the environment and is dedicated to reduce and manage the waste generated by the college campus. The following specific procedures will be undertaken to ensure the contribution in protecting the environment.

Solid Waste Management

With its aim to provide holistic education that also has a positive impact on the environment, the college will adopt practices that will mitigate the generation, and manage solid waste through the following methods:

- Systematically engage with the 3Rs of environment friendliness (Reduce, Reuse and Recycle).
- Collect paper waste produced on campus and collaborate with scrap dealers for recycling.
- Reduce solid waste by developing a technology centric teaching and administrative model.

- Reduce use of paper by supporting digitization of attendance and internal assessment records.
- Reduce requirement of printed books by updating the e books and e journals collection of the college library.
- Encourage the students and teachers to use emails for assignment submissions.
- Take initiatives to spread awareness amongst students about Food wastage and ways of minimizing it.
- Minimizing the use of packaged food
- The habit of reusing and recycling non-biodegradable products
- Organizing workshops for students on solid waste management.

Liquid Waste Management

Minimize the use of water by constructing more Indian style toilets instead of western style toilets. Continued employment of a caretaker to take immediate steps to stop any water leakage through taps, pipes, tanks, toilet flush etc.

E Waste Management

Our college ensures that its usage of technology and generation of e waste does not impact the environment. For this purpose, the college plans to strive towards:

- More provisions for the disposal of the institutional e waste.
- Collaboration with e waste recycling companies to get electronic waste recycled.
- Awareness amongst students about reduction of e waste and environment friendly disposal practices for e waste.
- Encouraging department and society level activities pertaining to e-waste management.
